PROFILE

Motivated and detail-oriented Junior Full Stack Developer and Automation Specialist, with hands-on experience in both front-end and back-end development. Recently completed the CAPACITI Graduate Accelerator Program and previously worked at Plum Systems for two years. Proficient in a wide range of technologies including Node.js, Express.js, React.js, Java, Python, HTML, and CSS, with live projects showcased on GitHub demonstrating practical competence.

Certified in Workato Automation (via Workato Bootcamp) and Microsoft Azure Fundamentals (AZ-900), with a strong understanding of cloud and automation solutions. Skilled in working with Joomla CMS, and experienced with relational and non-relational databases such as PostgreSQL, SQL, and MongoDB. Holds a Diploma in Application Development, with a passion for continuous learning and building impactful tech solutions.

WORK EXPERIENCE

Capaciti

October 2025 - Present

Automation Specialist Intern

- Automation Tools: Hands-on experience with Workato for building integrations and automating workflows across multiple platforms.
- Cloud Technologies: Knowledge of Microsoft Azure, with a focus on deployment, automation, and cloud-based solutions.
- API Integration: Experience in integrating third-party APIs to enhance system functionality and business processes.

Plum Systems

December 2021 - June 2024
